Woodham Road Over Holmes Creek Bridge Replacement

Jackson County, FL – The Florida Department of Transportation (FDOT) has officially notified the Jackson County Board of County Commissioners of an upcoming significant infrastructure improvement project. Starting Tuesday, July 16, FDOT will commence the upgrade of Woodham Road over Holmes Creek. The project is scheduled to span 255 days.

The primary objective of this project is to replace the existing two wooden bridges on Woodham Road over Holmes Creek with one continuous concrete structure. This comprehensive upgrade will include:

- Widening of the Roadway: The new bridge will feature 10-foot lanes and two-foot shoulders
- Paving the Approaches
- New Signs and Pavement Markings
- Minor Drainage Upgrades

To facilitate the construction of the new concrete bridge, additional right-of-way will be required. Consequently, Woodham Road will be temporarily closed at the bridge site, and traffic will be detoured for the duration of the project, approximately nine months.

We understand that this closure may cause temporary inconvenience, and we appreciate the community's patience and understanding as FDOT works towards these essential improvements. We encourage all residents and commuters to plan their travel routes accordingly and allow for extra travel time during this period.

For more detailed information about the project and ongoing updates, please visit the FDOT website at [FDOT - Northwest Florida Roads \(nwflroads.com\)](http://FDOT-Northwest Florida Roads (nwflroads.com)).
