## Scheduled Water Service Interruption and Booster Pump Installation in Indian Springs Subdivision

Jackson County, FL – Jackson County Utilities is committed to improving water service for our residents. To increase and stabilize water pressure in the **Indian Springs subdivision**, a water booster pump installation has been rescheduled for **Tuesday, January 14, 2025**.

Utility crews discovered an unmarked utility line during preliminary work on Tuesday January 7, 2025, causing a temporary delay in the installation. The unmarked line has since been relocated, and the project is ready to proceed as planned.

Water service in Indian Springs will be temporarily interrupted from **9:00 AM to 5:00 PM on Tuesday, January 14, 2025** to complete the installation. Once service is restored, a **precautionary boil water notice** will be in effect until required

testing confirms the water is safe to drink. Residents will be notified via an additional press release once the notice is lifted.

We appreciate your patience as we work to enhance your water system. If you have any questions or concerns, please contact Jackson County Public Works at **850-718-0437**.

Thank you for your understanding as we strive to improve the quality and reliability of water service for our community.
